PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience building and maintaining scalable web applications using React, Next.js, TypeScript, GraphQL, NestJS, and MongoDB. Experienced in both frontend and backend development, delivering responsive user interfaces, API integrations, authentication systems, and business-critical features for production environments. Passionate about software architecture, clean code, and continuous professional growth.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Redux, Apollo Client, GraphQL

Backend: NestJS, Node.js, Express.js, REST APIs, GraphQL, JWT Authentication

Databases: MongoDB, Mongoose, SQLite

Cloud & DevOps: Docker, CI/CD, GitHub Actions, Vercel, AWS (Learning)

Tools & Methodologies: Git, Agile, Scrum, Jest, Unit/Integration Testing

PROFESSIONAL EXPERIENCE

Frontend Developer | Futbolify

San Salvador, El Salvador | December 2021 – January 2023

- Developed and maintained responsive user interfaces using React, TypeScript, Tailwind CSS, Apollo Client, and GraphQL for a platform serving 1,000–10,000 users.
- Collaborated within multidisciplinary Agile Scrum teams to deliver core features including social feeds, profiles, and chat functionality.
- Optimized application performance by improving video loading behavior and implementing caching strategies.

Full Stack Developer | BelezaSystem

Remote | March 2023 – December 2024

- Developed a point of sale that processes orders combining services and products with real-time stock control.
- Built scalable user interfaces with React/TypeScript and robust backend services using NestJS and MongoDB.
- Implemented GraphQL schemas, JWT-based authentication, and CI/CD deployment pipelines on Vercel.

Full Stack Developer | Restaurant POS System

Remote | March 2025– June 2026

- Designed and developed a desktop Point of Sale (POS) application for restaurants
- Architected a modular, event-driven application with domain-based use cases, repository pattern, and secure IPC
- Implemented end-to-end sales management, including cash sessions, multi-method payments, ACID-compliant transaction processing, and daily cash reconciliation.

EDUCATION

Bachelor of Engineering in Systems and Computing | Dr. Andrés Bello University | 2015 – 2021
